TORONTO GENERAL HOSPITAL

SUPERINTENDENTS OFFICE

July 7th, 1915.

President R.A.Falconer,
University of Toronto,
Toronto.

Dear Mr. President:-

I beg to acknowledge the receipt of your letter of the 2nd inst. enclosing cheque from Mr. Graham Campbell for \$125; also your letter of the 3rd inst. enclosing cheque for \$50 from the Huhtingdon Township Patriotic Association. These contributions to the equipment fund of No.4 General Hospital, University of Toronto, have been acknowledged to the donors.

Yours sincerely,

C. K. Clarke
Treasurer of Fund.

TORONTO GENERAL HOSPITAL

September 14th, 1915.

President R. A. Falconer,
University of Toronto,
Toronto.

Dear President Falconer:-

The following message was sent
by cable today:-

"Lord Kitchener,
War Office, England.
"Students of Faculty of Medicine of University of
Toronto in Army Medical Service or in combatant ranks
in England and France who have completed their Third
Year in Medicine are desirous of continuing their
medical courses. Can these be released from service
to return here for that purpose?

Robert A. Falconer,
President, University of Toronto."

Yours faithfully,

C. K. Clarke
Dean.

October 13th, 1915.

Dean Clarke,

Faculty of Medicine.

Dear Dean Clarke:

I have my Annual Report for the year ending June 30th, 1915 nearly completed. Can you let me have a report from you as Dean of the Faculty of Medicine to be included in the appendix of my report?

Yours sincerely,

President.

TORONTO GENERAL HOSPITAL

November 11th, 1915.

President Falconer,
University of Toronto,
Toronto.

Dear President Falconer; -

There seems to be some difficulty with Superintendent Campbell in regard to getting keys to the Pathological Building, to which we must have access.

As possibly you are not aware, the animal room in the Pathological Building is a conjoint affair in which the animals used belong both to the Hospital and the University. We have a conjoint arrangement about this room and the fitting up of it. It is absolutely necessary that our Pathologist should have a key. Already I have deposited Twenty Dollars with the University for keys for the Pathological Building, although it seemed to me a very extraordinary demand at the time, but rather than have any trouble over the matter I paid the amount. The keys requested by Lougheed should be given to us.

I am sorry to trouble you with this matter but possibly it is the most speedy way of settling the difficulty.

Yours sincerely,

Superintendent.

Department of Pathology,
November 10th, 1915.

Dr. C. K. Clarke,
Dean,
Faculty of Medicine.

Dear Doctor:-

I wish you would reinvestigate the possibility of the department here obtaining a key to the elevator to the animal room. Locks were put on during the summer and they have not given us a key yet, which causes us a great deal of trouble.

I sent my diener up with the old key for the animal house and to get a new one for the new lock that was put on. This was refused and a letter sent in return which I forwarded to you.

I wish you would kindly look into the matter.

Sincerely yours,

G. W. Lougheed, M.D.,

December 7th, 1915

Dr. C. R. Clarke,
Toronto General Hospital.

Dear Dr. Clarke:

As I informed you to-day by telephone Dr. Aikins, the Registrar of the College of Physicians and Surgeons, has arranged for a joint conference between representatives of the University of Toronto and the Executive Committee of the Medical Council for next Saturday morning at 10 o'clock on the Medical Council Chambers.

Yours sincerely,

President.

SUPERINTENDENTS OFFICE

January 12th, 1916.

President Falconer,
University of Toronto,
Toronto.

Dear President Falconer:-

You will find Roberts' letter a very interesting document and there are some items in Mackenzie's epistle worth noting.

Do you not think that in loyalty to Roberts and the University, it would be reasonable to have General Sam Hughes remove the names of Caulfeild and McKeown from the University unit list and transfer them elsewhere? They have not played the game fairly and should not, in my opinion, masquerade under false colours.

Would you please return these letters as soon as possible, as Mrs. Roberts and one or two others would like to see them.

Yours sincerely,

C. R. Clarke,

January 12th, 1926

Dean C. K. Clarke,
Faculty of Medicine,
University of Toronto.

Dear Dean Clarke:

I do not know whether you remember Dr. Hall. I think he is Pathologist in the University of Alberta, but he has had a good training, and would do excellent work I think as a Pathologist. Can you make any suggestion as to an appointment?

With kind regards, I am,

Yours sincerely,

President.

C O P Y

Toronto, 81 Willcocks St.,

December 31st, 1916.

Dr. C. K. Clarke,

Dean Medical Faculty.

Dear Sir:-

For several years I have been in charge of the clinical laboratory of the University at St. Michael's Hospital but for the term of 1914-1915 I have received only one half of my remuneration, that part coming from pathological chemistry. I feel that this has been an oversight as I was supplied with materials by Professor Mackenzie throughout the term. And I also wish to understand my position with regard to pathology for this term for I have already received appointment from Dr. Hunter.

Thanking you for favours received, I remain,

Yours truly,

D. H. Boddington.

January 17th, 1916

Dear Dr. Clark,
Faculty of Medicine,
University of Toronto.

Dear Dr. Clark:

I have made inquiries from the Pursar's Office as to the appointment of Dr. D. H. Piddington in connection with the clinical professorate at St. Michael's Hospital. I am informed that he was not appointed to the faculty in 1915-16, during which session as you know Dr. A. G. MacKenzie still occupies one of his positions here. If Dr. MacKenzie intended to take such a nomination he must have communicated it by some oversight, but when he left last spring he said nothing to me with regard to Dr. Piddington's being appointed for the present winter, consequently until I have communication with Professor MacKenzie I am not in a position to take action.

Do you know whether Dr. MacKenzie is relying upon Dr. Piddington to do work this winter in St. Michael's Hospital ? If so, and if Dr. MacKenzie desires him to be appointed that can be done.

Yours sincerely,

President.

DEAN'S OFFICE
FACULTY OF MEDICINE

30
March 6th, 1916.

President Falconer,
University of Toronto,
Toronto.

Dear President Falconer:-

I have consulted Dr. McIlwraith regarding the enclosed letter from St. Michael's Hospital and we consider that Dr. Frawley is quite capable of carrying on the work. I have therefore suggested to Dr. McIlwraith that Dr. Frawley should do the work for the rest of the Session.

Yours faithfully,

C. K. Clarke,

Dean.

DEAN'S OFFICE
FACULTY OF MEDICINE

April 8th, 1916.

President Falconer,
University of Toronto,
Toronto.

Dear President Falconer:-

The Dominion Medical
Council examinations take place in Toronto on
June 13th, 1916. The Council has asked me
to secure the use of one or more rooms in the
University where written examinations may be
held.

Yours faithfully,

G.K. Clarke, M.

Dean.

April 24th, 1916

Dr. C. K. Clarke,
Dean of the Medical Faculty,
University of Toronto.

Dear Dr. Clarke:

I am sending you a letter that I have just received from the Secretary of the Medical Commission. We should let Mr. Justice Hodges have our views as soon as possible. Will you consult some of the medical men with regard to it?

Yours sincerely,

President.

DEAN'S OFFICE
FACULTY OF MEDICINE

June 8th, 1916.

President Falconer,
University of Toronto,
Toronto.

Dear President Falconer:-

As you understand, the Board of Graduate Studies meets in the Medical Faculty Room regularly, with the result that owing to the temporary character of the partition, all the work of the office has to be suppressed during the meeting, - and many of the meetings are, as you know, very long.

I would suggest that a permanent partition be put in the room at an early date if these meetings are to continue, as Miss Jamieson tells me it is impossible under present arrangements to get on with the work that is absolutely necessary.

Yours sincerely,

G. K. Clarke
Dean. *Des N.*
